Journal's Performance

Journal Impact Factor

The Journal Impact Factor (JIF) is a journal-level metric calculated from data indexed in the Web of Science Core Collection. It should be used with careful attention to the many factors that influence citation rates, such as the volume of publication and citations characteristics of the subject area and type of journal. The Journal Impact Factor can complement expert opinion and informed peer review. In the case of academic evaluation for tenure, it is inappropriate to use a journal-level metric as a proxy measure for individual researchers, institutions, or articles. [Learn more](#)

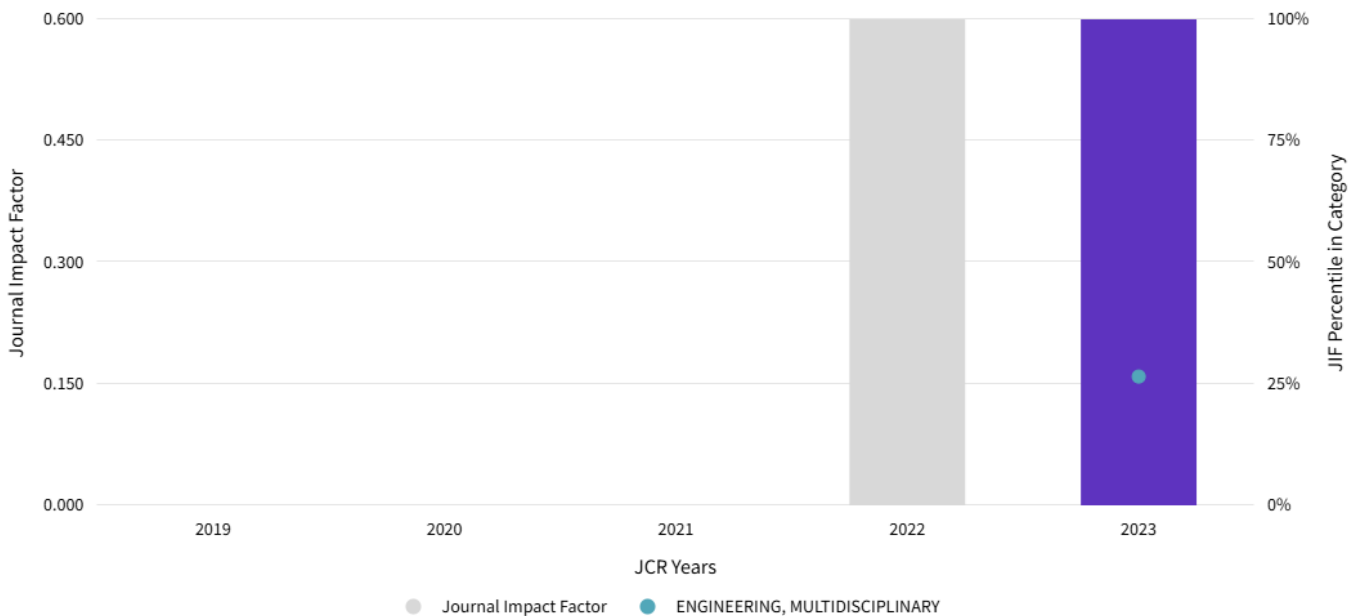

2023 JOURNAL IMPACT FACTOR

0.6

2023 JOURNAL IMPACT FACTOR WITHOUT SELF CITATIONS

0.5

Journal Impact Factor Trend 2023

Journal Impact Factor is calculated using the following metrics

$$\frac{\text{Citations in 2023 to items published in 2021 (51) - 2022 (40)}}{\text{Number of citable items in 2021 (81) + 2022 (80)}} = \frac{91}{161} = 0.6$$

Journal Impact Factor without self cites is calculated using the following metrics

$$\frac{\text{Citations in 2023 to items published in 2021 (51) + 2022 (40) - Self Citations in 2023 to items published in 2021 (4) + 2022 (4)}}{\text{Number of citable items in 2021 (81) + 2022 (80)}} = \frac{91 - 8}{161} = 0.5$$

Journal Impact Factor Contributing Items

Citable Items (161)

TITLE	CITATION COUNT
<p>Prediction of Insurance Fraud Detection using Machine Learning Algorithms Authors: Rukhsar, Laiqa;Bangyal, Waqas Haider;Nisar, Kashif;Nisar, Sana Volume: 41 Accession number: WOS:000737264200001 Document Type: Article</p>	6 
<p>Resume Classification System using Natural Language Processing and Machine Learning Techniques Authors: Ali, Irfan;Mughal, Nimra;Khand, Zahid Hussain;Ahmed, Javed;Mujtaba, Ghulam Volume: 41 Accession number: WOS:000737282900001 Document Type: Article</p>	5 
<p>Adapted flower pollination algorithm for a standalone solar photovoltaic system Authors: Awan, Muhammad Mateen Afzal;Awan, Mehmoona Javed Volume: 41 Accession number: WOS:001131571200012 Document Type: Article</p>	4 
<p>Zernike Moments Based Handwritten Pashto Character Recognition Using Linear Discriminant Analysis Authors: Jehangir, Sardar;Khan, Sohail;Khan, Sulaiman;Nazir, Shah;Hussain, Anwar Volume: 40 Accession number: WOS:000608579900006 Document Type: Article</p>	4 
<p>Effect of Climatic Conditions on Treatment Efficiency of Wastewater Stabilization Ponds at Chokera, Faisalabad Authors: Ali, Hafiz Qasim;Farooq, Amir;Ahmad, Muzaffar;Ahmed, Mohammad Laeeque;Akhtar, Muhammad Volume: 40 Accession number: WOS:000608579900019 Document Type: Article</p>	3

Journal Citation Indicator (JCI)

0.19

The Journal Citation Indicator (JCI) is the average Category Normalized Citation Impact (CNCI) of citable items (articles & reviews) published by a journal over a recent three year period. The average JCI in a category is 1. Journals with a JCI of 1.5 have 50% more citation impact than the average in that category. It may be used alongside other metrics to help you evaluate journals. [Learn more](#)

Total Citations

342

The total number of times that a journal has been cited by all journals included in the database in the JCR year. Citations to journals listed in JCR are compiled annually from the JCR years combined database, regardless of which JCR edition lists the journal.

Citation Distribution

The Citation Distribution shows the frequency with which items published in the year or two years prior were cited in the JCR data year (i.e., the component of the calculation of the JIF). The graph has similar functionality as the JIF Trend graph, including hover-over data descriptions for each data point, and an interactive legend where each data element's legend can be used as a toggle. You can view Articles, Reviews, or Non-Citable (other) items to the JIF numerator. [Learn more](#)

Rank by Journal Impact factor

Journals within a category are sorted in descending order by Journal Impact Factor (JIF) resulting in the Category Ranking below. A separate rank is shown for each category in which the journal is listed in JCR. Beginning in 2023, ranks are calculated by category. [Learn more](#)

CATEGORY

ENGINEERING, MULTIDISCIPLINARY

132/179

JCR YEAR	JIF RANK	QUART ILE	JIF PERCENTILE	
2023	132/179	Q3	26.5	

Rank by Journal Citation Indicator (JCI)

Journals within a category are sorted in descending order by Journal Citation Indicator (JCI) resulting in the Category Ranking below. A separate rank is shown for each category in which the journal is listed in JCR. Data for the most recent year is presented at the top of the list, with other years shown in reverse chronological order. [Learn more](#)

Additional metrics

Eigenfactor score

0.00027

The Eigenfactor Score is a reflection of the density of the network of citations around the journal using 5 years of cited content as cited by the Current Year. It considers both the number of citations and the source of those citations, so that highly cited sources will influence the network more than less cited sources. The Eigenfactor calculation does not include journal self-citations. [Learn more](#)

Normalized Eigenfactor

0.06084

The Normalized Eigenfactor Score is the Eigenfactor score normalized, by rescaling the total number of journals in the JCR each year, so that the average journal has a score of 1. Journals can then be compared and influence measured by their score relative to 1. [Learn more](#)

Article influence score

0.082

The Article Influence Score normalizes the Eigenfactor Score according to the cumulative size of the cited journal across the prior five years. The mean Article Influence Score for each article is 1.00. A score greater than 1.00 indicates that each article in the journal has above-average influence. [Learn more](#)

5 year Impact Factor

0.5

The 5-year Impact Factor is the average number of times articles from the journal published in the past five years have been cited in the JCR year. It is calculated by dividing the number of citations in the JCR year by the total number of articles published in the five previous years.

5 year Impact Factor calculation

Citations in 2023 to items published in [2018-2022] (223)	=	223	=	0.5
Number of citable items in [2018-2022] (411)		411		

Immediacy Index

0.2

The Immediacy Index is the count of citations in the current year to the journal that reference content in this same year. Journals that have a consistently high Immediacy Index attract citations rapidly.

[Learn more](#)

Immediacy Index calculation

$$\frac{\text{Cites in 2023 to items published in [2023]}}{\text{Number of items published in [2023]}} = \frac{14}{74} = 0.2$$
